AXIA COOPERATIVE

Axia Cooperative is a new cooperative focused on ensuring contract compliance and delivering best value. We take immense pride in collaborating with the best Lead Agencies to deliver time and cost-saving contracts with top-tier suppliers. Every Lead Agency we partner with has received the prestigious Achievement of Excellence in Procurement award from NPI. These esteemed agencies are experts at developing, soliciting, and awarding contracts through the stringent, established procurement processes. The Axia team brings decades of national cooperative purchasing experience, ensuring procedural compliance across all 50 states.

TEC-REFRESH, INC.

Tec-Refresh Inc. is a leading provider of cybersecurity and data security solutions, specializing in protecting organizations from modern cyber threats. As a Managed Security Service Provider (MSSP), Tec-Refresh combines deep industry knowledge with cutting-edge technology to offer a wide range of services, including network security, threat intelligence, and data protection. Tec-Refresh's commitment to operational excellence ensures that organizations are safeguarded from potential security breaches, while maintaining compliance with industry standards and regulations.

PARTNERSHIP OVERVIEW

The partnership between Axia Cooperative and Tec-Refresh Inc. represents a significant step toward enhancing cybersecurity solutions for public sector organizations. Through this collaboration, Public Agencies gain access to Tec-Refresh's comprehensive suite of cybersecurity and data protection services, ensuring that they can mitigate risks and secure critical infrastructure efficiently. The contract was publicly solicited and awarded by the City of Tucson, AZ on behalf of agencies nationwide. The resulting award provides savings through nationally leveraged pricing so agencies can effectively procure top-tier security services through an efficient cooperative contracting process.

By aligning with Axia's cooperative purchasing model, Tec-Refresh is able to extend its reach to public sector organizations, providing them with scalable, customizable solutions designed to meet the ever-evolving landscape of cyber threats. This partnership emphasizes a shared commitment to both compliance and security, ensuring that all solutions delivered under the contract adhere to rigorous procurement standards while offering the most advanced security technologies available today. Full contract documentation and additional details can be found on the Axia site [here](#).
